At the march, there are
Dyke Marshals who are
community volunteers
trained in de-escalation.

Masks are required not only
to keep us healthy but also
to disrupt surveillance.

All DCDM spaces are cop
and press free.

Liberation demands a world without
these systems of harm, where
borders, policing, and surveillance
do not determine who gets to live
safely and freely.

As dykes, our resistance is grounded
in collective care, autonomy and
liberation.

From forced migration to
gentrification here in DC, we reject
systems that push people out of
their communities and deny them
safety, stability and personhood.

We believe ICE should be
defunded and will continue
to stand against the broader
systems of violence it
represents including
policing, state violence and
the criminalization of
communities that have been
historically marginalized.

During a time of escalating
violence in our city, country
and world we firmly stand
against ICE.
